SKILLS

- **Languages:** C, C++, Java, Python, SQL, HTML, CSS
- **Data Science:** Pandas, NumPy, Scikit-learn, Seaborn
- **Visualization:** Matplotlib, PowerBI
- **Tools:** Git, Jupyter Notebook, Google Colab, Visual Studio Code
- **Soft Skills:** Leadership, Problem-Solving, Communication, Adaptability, Decision Making

Projects

- **Face Emotion Recognition |** Mar '2025 – Apr '2025
  - Processed 30K+ facial images and engineered a complete pipeline for emotion classification.
  - Performed data cleaning, face detection, augmentation, and preprocessing to improve model robustness.
  - Developed and trained a CNN-based deep learning model, achieving 92%+ accuracy in multi-class emotion recognition.

  Tech: Python, Pandas, NumPy, Matplotlib, Seaborn, TensorFlow
- **Crime Report Analysis Dashboard |** Mar '2025 – Apr '2025
  - Analyzed 10K+ crime records to identify trends across crime type, location, time, and victim/offender characteristics.
  - Performed data cleaning, preprocessing, and feature engineering to derive actionable insights such as hotspots and high-risk time periods.
  - Derived insights on high-crime zones, peak hours, and offense types to support law enforcement planning.

  Tech: Microsoft Excel (Pivot Tables, Charts, Slicers, Conditional Formatting, Advanced Formulas)
- **Python Voting Application |** Jun '2025 – Jul '2025
  - Developed a GUI-based Voting Application using Python's Tkinter library to simulate a secure and user-friendly voting system.
  - Added features like candidate list display, confirmation dialog, vote count visualization, and session reset functionality.
  - Ensured smooth layouts, frames, buttons, labels and event-driven programming.

  Tech: Python, Tkinter, CSV/JSON

Training

- **Training – Centre of Professional Enhancement**
  Data Structures and Algorithms using C++ | Jun '2025 – Jul '2025
  - Completed a two-month internship mastering core and advanced Data Structures and Algorithms using C++.
  - Developed multiple C++ projects applying algorithms and problem-solving techniques to real-world scenarios.
  - Engineered multiple C++ projects applying algorithms and techniques to various real-world scenarios.

  Tech: Data Structures and Algorithms, C++, File Handling

CERTIFICATIONS

- **Cloud Computing with Elite Performance *by NPTEL* |** Oct '2025
- **OCI 2025 Certified Data Science Professional *by Oracle* |** Sep '2025

ACHIEVEMENTS

- **Achieved a 100+ Day Activity Streak** Jun '2025
  - On LeetCode, earning multiple badges, including the 100 Days Badge (2025).
  - Solved 150+ LeetCode problems across Data Structures & Algorithms.

EDUCATION

- **Lovely Professional University** Aug '23 – Present
  Bachelor of Technology - Computer Science and Engineering; **CGPA: 7.57** Punjab, India
- **St. Johns School** Apr '21 – Mar '22
  Intermediate; **Percentage: 80%** Varanasi, Uttar Pradesh
- **St. Johns School** Apr '19 – Mar '20
  Matriculation; **Percentage: 88%** Varanasi, Uttar Pradesh
